Q4 Fiscal 2018

 **Nasdaq** : MITK

# Safe Harbor Statement

Forward-looking statements contained in this presentation involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially and adversely from those expressed or implied by such forward-looking statements. Forward-looking statements may include, but are not limited to, statements relating to our outlook or expectations for earnings, revenues, expenses, asset quality, volatility of our common stock, financial condition or other future financial or business performance, strategies, expectations, or business prospects, or the impact of legal, regulatory or supervisory matters on our business, results of operations or financial condition.

Forward-looking statements can be identified by the use of words such as “estimate,” “plan,” “project,” “forecast,” “intend,” “expect,” “anticipate,” “believe,” “seek,” “target” or similar expressions. Forward-looking statements reflect our judgment based on currently available information and involve a number of risks and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the section titled “Risk Factors” in our Form 10-K for the fiscal year ended 9/30/17 filed with the SEC on 11/30/17 and any subsequent filings under the Exchange Act and in our other SEC filings. Additionally, there may be other factors that could preclude us from realizing the predictions made in the forward-looking statements. We operate in a continually changing business environment and new factors emerge from time to time. We cannot predict such factors or assess the impact, if any, of such factors on our financial position or results of operations. All forward-looking statements included in this presentation speak only as of the date of this presentation and you are cautioned not to place undue reliance on any such forward-looking statements. Except as required by law, we undertake no obligation to publicly update or release any revisions to these forward-looking statements to reflect any events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events.

# Commerce Shift to Digital

## Leveraging Market Trends

### Digital Transformation

Mobile and digital strategies are paramount for commerce and require trust.

### Economic

Digital transformation reduces cost of acquisition, transaction costs, and increases customer acquisition.

### Regulatory

Terrorism, identity fraud and rapid globalization have dramatically changed the regulatory landscape.

### Social

Mobile-first consumers demand offerings with little to no friction for customer on-boarding and service.

# Note Regarding Use of Non-GAAP Financial Measures

This presentation contains non-GAAP financial measures for non-GAAP net income and non-GAAP net income per share that exclude stock compensation expenses, intellectual property litigation costs, acquisition-related costs and expenses, executive transition costs, income tax effect of pre-tax adjustments, impact of tax reform on deferred taxes and the cash tax difference. These financial measures are not calculated in accordance with generally accepted accounting principles (GAAP) and are not based on any comprehensive set of accounting rules or principles. In evaluating the Company's performance, management uses certain non-GAAP financial measures to supplement financial statements prepared under GAAP. Management believes these non-GAAP financial measures provide a useful measure of the Company's operating results, a meaningful comparison with historical results and with the results of other companies, and insight into the Company's ongoing operating performance. Further, management and the Board of Directors utilize these non-GAAP financial measures to gain a better understanding of the Company's comparative operating performance from period-to-period and as a basis for planning and forecasting future periods. Management believes these non-GAAP financial measures, when read in conjunction with the Company's GAAP financials, are useful to investors because they provide a basis for meaningful period-to-period comparisons of the Company's ongoing operating results, including results of operations against investor and analyst financial models, which helps identify trends in the Company's underlying business and provides a better understanding of how management plans and measures the Company's underlying business.

# Non-GAAP Net Income Reconciliation

(amounts in thousands except share data)

	Three Months Ended September 30,		Twelve Months Ended September 30,	
	2018	2017	2018	2017
Net income (loss)	\$ (2,127)	\$ 12,866	\$ (11,807)	\$ 14,092
Non-GAAP adjustments:				
Acquisition-related costs and expenses (1)	2,623	690	9,491	2,356
Litigation costs	—	51	50	51
Executive transition costs (2)	1,636	—	1,636	504
Stock compensation expense	3,023	1,533	8,950	5,478
Income tax effect of pre-tax adjustments	(2,184)	—	(6,038)	—
Impact of tax reform on deferred taxes	484	—	4,901	—
Cash tax difference (3)	2,262	—	3,819	—
Benefit related to the release of deferred tax asset valuation allowance	—	(11,035)	—	(11,035)
Non-GAAP net income	5,717	4,105	11,002	11,446
Non-GAAP income per share—basic	\$ 0.15	\$ 0.12	\$ 0.31	\$ 0.35
Non-GAAP income per share—diluted	\$ 0.14	\$ 0.11	\$ 0.29	\$ 0.32
Shares used in calculating non-GAAP net income per share—basic	37,858	33,522	35,811	33,083
Shares used in calculating non-GAAP net income per share—diluted	39,693	36,251	37,780	35,537

- (1) Includes a \$1.3 million foreign currency exchange remeasurement loss related to euros purchased for the A2iA acquisition during the twelve months ended September 30, 2018.
- (2) Comprised of costs associated with the transition of the Company's executive officers. Our non-GAAP financial measures exclude these transition costs as we believe that such expense is inconsistent with the normally recurring operations of our Company and it makes it difficult to make period-to-period comparisons of our operating performance. Comparable figures have been restated to conform to the current period's presentation.
- (3) The Company's non-GAAP net income is calculated using the cash tax rate of 3%. The estimated cash tax rate is the estimated tax payable on the Company's tax returns as a percentage of estimated annual non-GAAP pre-tax net income. The Company uses an estimated cash tax rate to adjust for the historical variation in the effective book tax rate associated with the reversal of valuation allowances, the utilization of research and development tax credits, and the utilization of loss carryforwards which currently have an overall effect of reducing taxes payable. The Company believes that the cash tax rate provides a more transparent view of the Company's operating results. The Company's effective tax rate used for the purposes of calculating GAAP net loss for the three and twelve months ended September 30, 2018 was negative 58% and negative 35%, respectively.
