The company's patented flagship product, Mobile Deposit®, which allows users to deposit checks anytime, anywhere simply by snapping photos of checks with their camera-equipped smartphones, is now being deployed by dozens of banks – including five of the top 10 retail banks in the United States – credit unions, brokerages and cash-management organizations, such as PayPal. The company's recently launched Mobile Photo Bill Pay™ allows a consumer to pay any bill by photographing it with a smartphone camera.

### **About Mitek Systems**

For more than 20 years, Mitek Systems (OTC: MITK.OB) has provided financial institutions with advanced imaging and analytics software to authenticate and extract data from imaged checks and other financial documents. Mitek's patented technology is currently used by all leading financial organizations in the United States to process more than 10 billion items per year.

Today, Mitek is applying its patented technology and extensive expertise in image correction, optical character recognition and intelligent data extraction to mobile devices. Using Mitek Mobile Apps, smartphone users can now deposit checks, pay bills, save receipts and fax documents while on the road or sitting at a desk -- eliminating trips to the bank, Post Office and file cabinet. Simply take a picture of the document and Mitek does the rest -- correcting image distortion, extracting relevant data, routing images to their desired location, and processing transactions through users' financial institutions.
