1. Basis of Presentation

The accompanying unaudited consolidated financial statements of Mitek Systems, Inc. (the "Company") have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and footnote disclosures that are otherwise required by Regulation S-X and that will normally be made in the Company's Annual Report on Form 10-K. The financial statements do, however, reflect all adjustments (solely of a normal recurring nature) which are, in the opinion of management, necessary for a fair statement of the results of the interim periods presented.

In December 1999, the SEC issued Staff Accounting Bulletin (SAB) No. 101, "Revenue Recognition in Financial Statements". SAB 101 provides the SEC staff's views in applying generally accepted accounting principles to selected revenue recognition issues including software revenue recognition. The Company will be required to adopt SAB 101 in the fourth quarter of the 2001 fiscal year, and the Company does not believe that the adoption of SAB 101 will have a material impact on its financial position or results of operations.

Results for the three and nine months ended June 30, 2001 and June 30, 2000 are not necessarily indicative of results which may be reported for any other interim period or for the year as a whole.

Recent Accounting Pronouncements – In June 2001 the Financial Accounting Standards Board approved Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets". SFAS No. 141 prospectively prohibits the use of pooling of interests method of accounting for business combinations initiated after June 30, 2001. SFAS No. 142 requires companies to cease amortizing goodwill that existed at June 30, 2001. The amortization of existing goodwill will cease on December 31, 2001. Any goodwill resulting from acquisitions completed after June 30, 2001 will not be amortized. SFAS No. 142, also establishes a new method of testing goodwill for impairment on an annual basis or on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. The Company believes that these standards will not have a material impact on its financial position or results of operations.

2. Inventories

Inventories are summarized as follows:

	June 30, 2001	September 30, 2000
Raw materials	\$ 2,628	\$ 2,628
Finished goods	71,821	122,986
<b>Total</b>	<b>\$ 74,449</b>	<b>\$ 125,614</b>

3. Commitments and contingencies

In the normal course of business, the Company, at various times, has been named in lawsuits. As previously disclosed, the Company, and officers of the Company, William Boersing, John M. Thornton, Dennis A. Brittain, Noel Flynn, and Board of Director, James De Bello, were sued in five lawsuits filed in October and November 2000. The same or similar allegations are made in all five lawsuits. These lawsuits were settled during the third quarter of fiscal 2001. The settlement did not have a material adverse effect on the Company's financial condition or results of operations. As previously disclosed, the Company was also a defendant in a case filed by DMS, Inc., d/b/a Document Management & Support. The plaintiff sought damages against the Company on a number of theories. This lawsuit was dismissed during the quarter.

**MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

In addition to historical information, this Management's Discussion and Analysis of Financial Condition and Results of Operations (the "MD&A") contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. As contained herein, the words "expects," "anticipates," "believes," "intends," "will," and similar types of expressions identify forward-looking statements, which are based on information that is currently available to the Company, speak only as of the date hereof, and are subject to certain risks and uncertainties. To the extent that the MD&A contains forward-looking statements regarding the financial condition, operating results, business prospects or any other aspect of the Company, please be advised that the Company's actual financial condition, operating results and business performance may differ materially from that projected or estimated by the Company in forward-looking statements. The Company has attempted to identify, in context, certain of the factors that it currently believes may cause actual future experiences and results to differ from the Company's current expectations. The difference may be caused by a variety of factors, including, but not limited, to the following: (i) adverse economic conditions; (ii) decreases in demand for Company products and services; (iii) intense competition, including entry of new competitors into the Company's markets; (iv) increased or adverse federal, state and local government regulation; (v) the Company's inability to renew its working capital credit line or otherwise obtain additional capital on terms satisfactory to the Company; (vi) increased or unexpected expenses; (vii) lower revenues and net income than forecast; (viii) price increases for supplies; (ix) inability to raise prices; (x) the risk of additional litigation and/or administrative proceedings involving the Company and its employees; (xi) an adverse outcome of the five class action lawsuits pending against the Company; (xii) higher than anticipated labor costs; (xiii) adverse publicity or news coverage regarding the Company; (xiv) inability to successfully carry out marketing and sales plans, including the Company's strategic realignment; (xv) loss of key executives; (xvi) changes in interest rates; (xvii) inflationary factors; (xviii) and other specific risks that may be alluded to in this MD&A.

The Company's strategy for fiscal 2001 is to bring the Company's operations into alignment with a more targeted market for its products, while refocusing on the Company's core strength of character recognition technology. In particular, Mitek is determined to build the installed base of its CheckQuestâ product line, continued growth of the existing market for its QuickStrokesâ and CheckScriptÔ product lines, and developing targeted, specific applications of its DoctusÔ product to those customers and markets best suited to this solution. Mitek also seeks to broaden the use of its products with current customers by identifying new and innovative applications of its existing technology.

The Company believes that its results for the third quarter of fiscal 2001 demonstrate its ability to make this strategy successful. In the three months ending June 30, 2001, revenues were \$2,798,000, an increase of \$662,000 or 31% over the \$2,136,000 revenues in the same period last year. Gross margin for the quarter ended June 30, 2001 was \$2,127,000, an increase of \$647,000 or 44% over the \$1,480,000 gross margin in the same period last year. The Company earned net income of \$508,000 or \$0.05 per basic and diluted share for the third quarter of fiscal 2001, compared with a net loss of (\$906,000) or (\$0.08) per basic and

diluted share for the third quarter of fiscal 2000. In the nine months ending June 30, 2001, revenues were \$6,608,000, a decrease of \$847,000 or 11% over the \$7,455,000 revenues in the same period last year. Gross margin for the nine months ended June 30, 2001 was \$4,968,000, a decrease of \$1,117,000 or 18% over the \$6,085,000 gross margin in the same period last year. The Company had a net loss of (\$217,000) or (\$0.02) per basic and diluted share for the nine month period ending June 30, 2001, compared with net income of \$17,000 or \$0.00 per diluted share for the same period last year.

The Company's cash position increased in the third quarter of fiscal 2001. At June 30, 2001 the Company had \$.9 million in cash and cash equivalents as compared to \$.5 million on September 30, 2000. During the third quarter 2001, the Company renegotiated its lines of credit, which now have limits on available borrowings of \$750,000 on the revolving line of credit and \$250,000 on the equipment line of credit. There were no borrowings under the lines of credit as of June 30, 2001.

The Company believes that the third quarter of fiscal 2001 is demonstrating the benefits of previous policies of stricter sales and credit terms, resulting in better cash flow from operations, and payoff of the line of credit. The improved condition of the Company's liquidity and capital should permit the Company to meet anticipated growth in the future. The Company will continue to work very closely with its customers to meet their needs and the needs of their customers.

#### ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS:

##### Comparison of Three Months and Nine Months Ended June 30, 2001 and 2000

*Net Sales.* Net sales for the three-month period ended June 30, 2001 were \$2,798,000, compared to \$2,136,000 for the same period in 2000, an increase of \$662,000, or 31%. Net sales for the nine-month period ended June 30, 2001 were \$6,608,000, compared to \$7,455,000 for the same period in 2000, a decrease of \$847,000 or 11%. The increase for the quarter was primarily attributable to penetrating target markets for the Company's Checkquest product. The decrease for the nine-month period is primarily attributable to reduced sales of the Company's Doctus product.

*Gross Margin.* Gross margin for the three-month period ended June 30, 2001 was \$2,127,000, compared to \$1,480,000 for the same period in 2000, an increase of \$647,000 or 44%. Stated as a percentage of net sales, gross margin increased to 76% for the three-month period ended June 30, 2001 compared to 69% for the same period in 2000. Gross margins for the nine-month period ended June 30, 2001 were \$4,968,000, compared to \$6,085,000 for the same period in 2000, a decrease of \$1,117,000 or 18%. Stated as a percentage of net sales, gross margins decreased to 75% for the nine-month period ended June 30, 2001, compared to 82% for the same period in 2000. The increase in gross margin both in the dollar amount and as a percentage of gross sales for the quarter resulted primarily from increased software sales as a percentage of the product mix. The decrease in gross margin both in dollars and as a percentage of sales for the nine-month period resulted primarily from lower sales and product mix.

*Operations.* Operations expenses for the three-month period ended June 30, 2001 were \$281,000, compared to \$390,000 for the same period in 2000, a decrease of \$109,000 or 28%. Stated as a percentage of net sales, operations expenses decreased to 10% for the three-month period ended June 30, 2001, as compared to 18% for the three-month period ended June 30, 2000. The decrease in expense is primarily attributable to reduced expenses for materials, travel and other discretionary expenses. Operations expenses for the nine-month period ended June 30, 2001 were \$934,000, compared to \$898,000 for the same period in 2000, an increase of \$36,000 or 4%. Stated as a percentage of net sales, operations expenses increased to 14% for the nine-month period ended June 30, 2001, compared to 12% for the same period in 2000. This increase in expenses is primarily attributable to additional travel and other discretionary expenses.

*General and Administrative.* General and administrative expenses for the three-month period ended June 30, 2001 were \$352,000, compared to \$563,000 for the same period in 2000, a decrease of \$211,000 or 37%. Stated as a percentage of net sales, general and administrative expenses decreased to 13% for the three month period ended June 30, 2001, compared to 26% for the same period in 2000. The decrease in expenses for the three months were primarily attributable to a reduction in costs associated with outside professional services and costs associated with Nasdaq Market listing. General and administrative expenses for the nine-month period ended June 30, 2001 were \$1,282,000, compared to \$1,458,000 for the same period in 2000, a decrease of \$176,000 or 12%. Stated as a percentage of net sales, general and administrative expenses decreased to 19% for the nine-month period ended June 30, 2001, compared to 20% for the same period in 2000. The decrease in expenses for the nine months were primarily attributable to costs associated with outside professional services.

*Research and Development.* Research and development expenses for the three-month period ended June 30, 2001 were \$427,000, compared to \$704,000 for the same period in 2000, a decrease of \$277,000 or 39%. Stated as a percentage of net sales, research and development expenses decreased to 15% for the three-month period ended June 30, 2001, compared to 33% for the same period in 2000. The decrease in expenses is primarily attributable to a reduction in outside services related to the conclusion of certain engineering projects. The decrease as a percentage of net sales for the three-month period is primarily attributable to the decrease in absolute dollar expenditures. Research and development expenses for the nine-month period ended June 30, 2001 were \$1,366,000, compared to \$1,677,000 for the same period in 2000, a decrease of \$311,000 or 19%. Stated as a percentage of net sales, research and development expenses decreased to 21% for the nine-month period ended June 30, 2001, compared to 22% for the same period in 2000. The decrease in expenses is primarily attributable to a reduction in outside services related to the conclusion of certain engineering projects. The decrease as a percentage of net sales for the nine-month period is primarily attributable to the decrease in absolute dollar expenditures.

*Selling and Marketing.* Selling and marketing expenses for the three-month period ended June 30, 2001 were \$576,000, compared to \$768,000 for the same period in 2000, a decrease of \$192,000 or 25%. Stated as a percentage of net sales, selling and marketing expenses decreased to 21% from 36% for the same period in 2000. The decrease in expenses is primarily attributable to the reduction of personnel and reduced marketing efforts on certain products. The decrease as a percentage of net sales is primarily attributable to the decrease in absolute dollar expenditures. Selling and marketing expenses for the nine-month period ended June 30, 2001 were \$1,577,000, compared to \$2,066,000 for the same period in 2000, a decrease of \$489,000 or 24%. Stated as a percentage of net sales, selling and marketing expenses decreased to 24% from 28% for the same period in 2000. The decrease in expenses is primarily attributable to the reduction of personnel and reduced marketing efforts on certain products. The decrease as a percentage of net sales is primarily attributable to the decrease in absolute dollar expenditures.

*Interest and Other Income (Expense) - Net.* Other income for the three-month period ended March 31, 2001 was \$17,000, compared to other income of \$22,000 for the same period in 2000, a decrease of \$5,000. Interest expense for the nine-month period ended June 30, 2001 was \$25,000, compared to interest income of \$30,000 for the same period in 2000, a decrease of \$55,000. The increase in net interest expense for the nine-months ended June 30, 2001 is primarily the result of borrowings under the Company's line of credit.

#### LIQUIDITY AND CAPITAL

The Company's cash position was increased in the third quarter of fiscal 2001. At June 30, 2001 the Company had \$944,000 in cash and cash equivalents as compared to \$537,000 at September 30, 2000. This represents an increase of \$407,000. Accounts receivable totaled \$5,005,000, a decrease of \$1,129,000 over the September 30, 2000, balance of \$6,134,000. This decrease was primarily a result of collection of existing receivables, combined with stricter credit terms on

new sales. The Company revised its revolving line of credit, which is discussed below. The \$250,000 equipment line of credit was also retained. There were no borrowings under the revolving line of credit at June 30, 2001, a reduction of \$513,000 from the balance of \$513,000 at September 30, 2000. There were no borrowings under the equipment line of credit at June 30, 2001 and September 30, 2000.

The Company has financed its cash needs during fiscal 2000 and the first three quarters of fiscal 2001 primarily from borrowings and collection of accounts receivable.

Net cash generated by operating activities during the nine months ended June 30, 2001 was \$1,016,000. The primary use of cash from operating activities was a net loss of \$217,000, a decrease in accounts payable of \$132,000, a decrease in unearned income of \$43,000, a decrease in accrued payroll and related taxes of \$17,000, a decrease in other accrued liabilities of \$74,000 and an increase in inventories, prepaid expenses and other assets of \$42,000. The primary source of cash from operating activities was depreciation and amortization of \$405,000, a decrease in the accounts receivables of \$934,000, and an increase to the reserve for doubtful accounts of \$195,000.

The Company's working capital and current ratio was \$4,030,000 and 2.94 at June 30, 2001, and \$4,030,000 and 2.42 at September 30, 2000. At June 30, 2001, total liabilities to equity ratio was .45 to 1 compared to .59 to 1 at September 30, 2000. As of June 30, 2001, total liabilities were reduced by \$775,000 from September 30, 2000.

In August 2000, the Company increased its working capital line of credit to \$2,500,000. The line of credit expires on August 15, 2001, and interest is payable at prime plus 1.5 percentage points. In addition, the Company renewed its equipment credit line in the amount of \$250,000 under similar terms and conditions. The Company had no borrowings under the working capital line of credit on June 30, 2001, compared with \$513,000 as of September 30, 2000. There were no borrowings under the equipment line of credit as of June 30, 2001 and September 30, 2000. The Company's line of credit agreements contain financial covenants, the violation of which could allow the Company's lender to declare the line of credit agreements to be in default. At September 30, 2000, the Company was in violation of certain working capital line of credit financial covenants, including those regarding the Company's net worth ratio, the Company's minimum working capital, and the Company's current ratio. During February, 2001 the Company's lender agreed to adjust the net worth covenant such that the Company was in compliance, and has further waived the other covenant violations through August 15, 2001, provided the Company remains in compliance with the remaining terms of the line of credit agreements and maintains the balance outstanding under the line of credit at \$1,350,000 or less, and reduces such balance to \$1,000,000 or less on or before January 30, 2001, and to \$750,000 or less on or before February 28, 2001, and to \$500,000 or less on or before March 31, 2001. At March 31, 2001, the Company's net loss caused it to fall below the net worth covenant, a violation of the revised terms of the line of credit. The Company received a verbal temporary waiver of such covenant, due to the Company's long history with the lender, and the assurance that such line would be shortly paid in full. During the third quarter 2001, the Company renegotiated its lines of credit, which now have limits on available borrowings of \$750,000. This credit line is subject to a net worth covenant whereby the Company must maintain a net worth of \$4,000,000 in order to use the credit line. Though the Company had no borrowings under the credit lines as of June 30, 2001, at such time the Company's net worth was \$4,030,000.

The Company believes that it will be able to renew the revised current credit lines with its current lender, however, if such renewal cannot be obtained, the Company believes that alternative financing, under terms satisfactory to the Company will be available. The Company believes that it will have sufficient liquidity to finance its operations for the next twelve months using existing cash and cash generated from operations.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to certain market risks arising from adverse changes in interest rates, primarily due to the potential effect of such changes on the Company's variable rate working capital line of credit, as described under "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital." The Company does not use interest rate derivative instruments to manage exposure to interest rate changes.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings.

In the normal course of business, the Company, at various times, has been named in lawsuits. As previously disclosed, the Company, and officers of the Company, William Boersing, John M. Thornton, Dennis A. Brittain, Noel Flynn, and Board of Director, James De Bello, were sued in five lawsuits filed in October and November 2000. The same or similar allegations are made in all five lawsuits. These lawsuits were settled during the third quarter of fiscal 2001. The settlement did not have a material adverse effect on the Company's financial condition or results of operations. As previously disclosed, the Company was also a defendant in a case filed by DMS, Inc., d/b/a Document Management & Support. The plaintiff sought damages against the Company on a number of theories. This lawsuit was dismissed during the quarter.

### Item 6. Exhibits and Reports on Form 8-K

- a. Exhibits: None
- b. Reports on Form 8-K: None

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
